# Highlights

## Multi-layered board cover

The board cover is made of 100% cotton and is supported by foam and felt layers. This combination provides a comfortable and smooth ironing surface.

## Prolonged performance

From time to time your product needs a facelift, and with Philips consumer replacement parts to renew your product, it's never been so easy! All this with guaranteed Philips quality and 1:1 exchange.

## Safe iron rest

If your iron has the Optimal temp technology (meaning your iron does not have a temperature dial on it), you can easily leave the iron resting on this board cover.

## Unique felt

The unique felt layer ensures that when the excess steam condenses into water, you don't feel it on your clothes or ironing results.
